PARTIAL LIST

Hardy, Field-Grown PERENNIALS

FALL 1931
and
SPRING 1932

BIRCHMONT GARDENS

E. E. and GORRELL SHUMAKER
CAMBRIDGE CITY, INDIANA

LIBRARY
RECEIVED
★ APR 15 1932

U. S. Department of Agriculture

THIS LIST INCLUDES
AN ESPECIALLY FINE ASSORTMENT OF
DWARF PLANTS
FOR
THE ROCKERY OR ALPINE GARDEN

QUANTITY RATES

The dozen and hundred rates given apply to nice quality plants as they run in the nursery row. For individual selection an extra charge will be made for the extra labor involved.

SMALLER AND YOUNGER PLANTS

For those who are not concerned about immediate effects we often can supply second size or one-year plants at reduced rates.

ORDER EARLY. GET PLANTS IN PROPER SEASON

Plants purchased too late for the regular safe planting seasons should be "Balled" as dug. For this extra service a small fee will be charged. Order early and insure getting what you want.

THIS IS ONLY A PARTIAL LIST

Dozens of varieties of plants are now being propagated in our gardens and will be offered in our next list. Included in this group are a number of thymes, silenes, saxifragas and campanulas—choice rock garden subjects.

LOCATION

Our gardens are located one mile west of Dublin, Indiana (three miles west of Cambridge City) on U. S. Highway No. 40. Address us at Cambridge City, Ind, Route 1, or phone us, Cambridge City 8053. Visitors are always welcome.

HORTICULTURAL INFORMATION AND LANDSCAPE SERVICE AND DESIGN

Bring your problems to us. The younger member of this firm is a graduate horticulturist (Purdue University) and master landscape architect (American Landscape School). The elder member of the firm is an experienced propagator.
